Title:Linear Plotting with Line Formatting Using Matplotlib

```
In [3]: 1 import matplotlib.pyplot as plt
2 x=[1,2,3,4,5]
3 y=[2,4,6,8,10]
4 plt.plot(x,y,
5          label='Linear Relationship',
6          color='r',
7          linestyle='--',
8          marker='o',
9          markerfacecolor='yellow',
10         markeredgewidth='2',
11         linewidth=2)
12 plt.title('linear plotting with line formatting using matplotlib',fontsize=14,fontweight='bold',color='darkblue')
13 plt.xlabel('X-Axis',fontsize=14,fontweight='bold',color='darkblue')
14 plt.ylabel('Y-Axis',fontsize=14,fontweight='bold',color='darkblue')
15 plt.legend()
16 plt.grid(True)
```
